

Dear Children,

We want our school to be a place where everyone feels safe and secure and bullying is something that doesn't happen at our school. We want your help so that we can make school an even happier and safer place. You are the people who can make sure bullying doesn't happen in our school and the grown ups are going to help you.

Please use the ideas you have learned about over the week and your own ideas to think of ways we can make our school a safe and happy place to learn.

When you have finished you might like to share your ideas with the rest of the class before bringing them to me.

Your challenge is to think of:

- Some ideas for the staff (this includes, teachers, teaching assistants and midday supervisors). This might be something about the school building or playground or something they can do to help make the school safer.
- Something to display in your classroom to remind you what you can all do to help make sure no-one is bullied in your class. This might be some pictures or writing to remind you what to do if you see someone being nasty to someone else. It might be a class charter with a list of things you might do.
- A logo and/or a motto about making school or your class safe - something short and easy to remember.

I have asked for your teachers to give you some time to do this challenge but you can also work on your ideas at home.

Thank you for helping me with this very important task. The ideas we use will be celebrated in the Gold Book during celebration assembly.

Yours sincerely

Mrs Chambers
Headteacher
